

Maine Disaster Behavior Health Volunteers need to register with *Maine Responds*.

Maine Responds is the State of Maine’s online registry for Public Health Emergency Preparedness Volunteers both clinical and non-clinical volunteer health care professionals, including DBHRT volunteers. This registry will become the method for maintaining DBH membership and to deploy DBHRT volunteers.

1. Visit <https://maineresponds.org/> to Register.
2. Click “Register Now” to proceed to the registration page.

Welcome to the Maine Responds Emergency Health Volunteer System, the online registration system for public health, healthcare and emergency response volunteers for the State of Maine.

Maine Responds is a partnership that integrates local, regional, and statewide volunteer resources to assist our public health and healthcare systems. It is part of a national initiative to train, coordinate, and mobilize volunteers during an emergency. *Maine Responds* coordinates verified, pre-credentialed public health, healthcare and emergency response volunteers into a single database that can coordinate the need for volunteers across county, regional, and state lines if needed.

Registering as a *Maine Responds* volunteer will help ensure that people affected by a disaster will receive the public health and medical care they need. Registration is the first step in meeting this urgent need within Maine and the nation.

This site allows you to register as willing to provide services during a disaster or emergency situation. The registration system will collect basic information about you and your professional skills. Please click on the [Register Now](#) button below to begin the registration process. If you have already completed the registration process or wish to return to an in-progress registration, please sign-in using the log in area on this page.
